

NO PROOF, NO PAYMENT.

Every paving contractor in this market loses between 1-3% of annual margin to the cost of unproven work. The agency contests your quantities or rejects your changes because the documentation is weak. You're paying top dollar for engineers who spend hours hunting down facts that prove what happened. These costs are buried in your P&L. All of it compounds.

RECOVER MARGIN.

This is not a software problem. It is a margin problem, and OnStation is the recovery vehicle. OnStation puts the station on every crew member's phone and turns every flag, photo, form, and chat into **the field record that defends your margin**. Give your accounting team the power to trace back every bill to a station, a time stamp, and an operator. When a quantity gets contested, **the proof is in place before anyone asks for it.**

// PROOF

97%

ANNUAL RENEWAL
RATE

Hundreds of contractors
and a portfolio of state
DOTs re-up with
OnStation.

SOC 2 TYPE II

CERTIFIED

The audit report that clears procurement,
IT, and legal at the same time.

67%

LABOR SAVINGS

For one QC tech, per
non-nuke density
test, vs. tape & wheel
with iPad.

5,000+
