OnStation

Stop Chasing Proof

FOR OWNERS, PRESIDENTS, & DIVISION LEADERS RUNNING CONTRACTORS WITH ACTIVE ROADWAY WORK

Get the proof in place, and the margin follows.

PROOF GETS PAID

Contractors add 1 to 3 percent to project margin with work they can prove. When every quantity is tied to a location, agencies stop contesting it. Change orders go in with the facts already attached and come back approved. Your best engineers run projects instead of reconstructing them.

LIFT MARGIN

Digital stationing is not just a software purchase. It's a margin lever you can pull to make your jobs more profitable. Every flag, photo, form, and chat becomes **the field record that turns work done into work paid**. Accounting can trace any bill to a station, a time stamp, and an operator.

ONE PHOTO. A COMPLETE FIELD RECORD.

An unmarked utility, documented the moment the crew hit it.

On the Omaha Streetcar project, a utility line that wasn't on the locates was exposed. The photo already answers where and when, which are the key facts used to approve a change order.

WHEN	3/6/2025 • 10:39 AM
STATION	Farnam St 2031+27
OFFSET	180 ft Left
HEADING	222° SW
PROJECT	Utility Pkg West • OPW 54338
FINDING	Unmarked utility

WHERE THE LIFT COMES FROM

Claims you win
An $80K fraudulent pavement claim defeated with depth-check records.

Cash moves faster
Quantity verification drops from days to minutes. Retainage releases sooner.

Proven at scale
6,000+ projects stationed. 97% annual renewal with contractors & DOTs.

Clears procurement
SOC 2 Type II certified. One report for procurement, IT, & legal.

Every day with OnStation is another day of work you can prove.
Proven work is margin you earn. Start lifting it now.

Your projects are already in OnStation.
